

Swordsman

Choose your moment, then swiftly thrust your sturdy blade into the gaping jaws of some hideous monster. Beastmaster you'll never be, these nasties are definitively untameable, but swordsman you might just about manage. It's all quite simple. You just have to survive and get as many points as possible before some hideous creature does for you. Maybe the Vampire Cat will get to chew on your jugular. Who can tell? Quick, Lunge and thrust, missed . . . back to the left quickly . . . missed again . . . Aaargh . . . !
